

# Biomedical Research Helps People and Animals

---

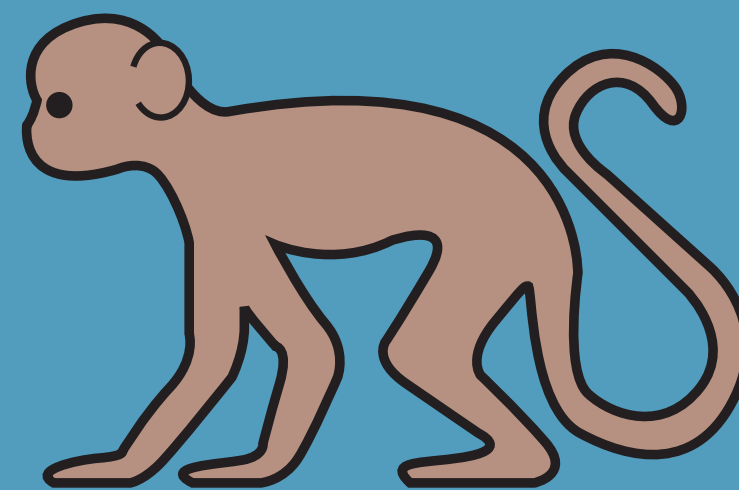

## Mouse

Cancer  
Addiction  
Genetics  
Transplantation  
Vaccines

## Fish

Diabetes  
Blood cell research  
Genetics

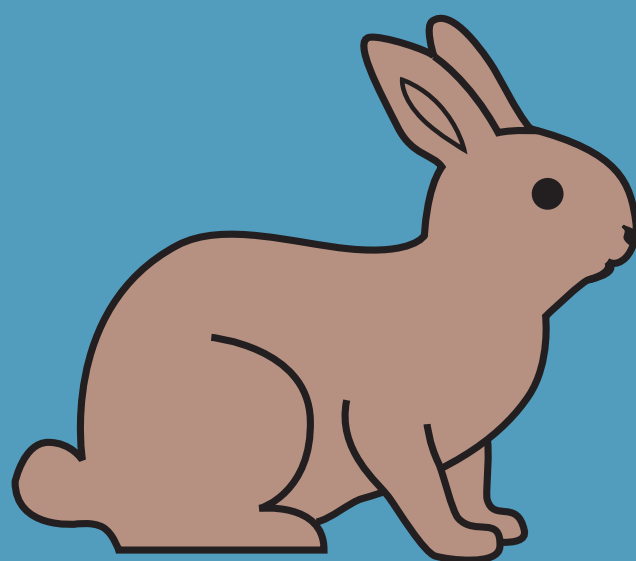

## Monkey

Parkinson's Disease  
Measles  
HIV/AIDS  
Malaria vaccine research  
Hepatitis

## Fruit Fly

Genetics  
Neurodegeneration  
Cancer

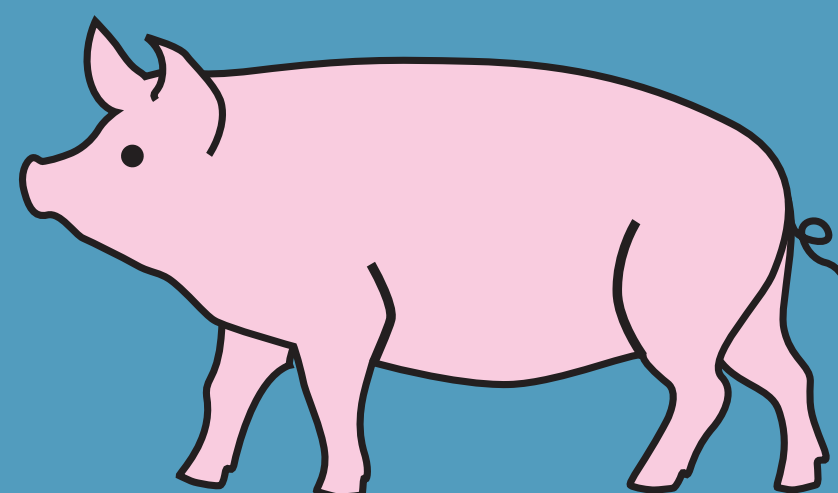

## Rabbit

Rabies vaccine  
Emphysema  
Ear infections  
Rabbit snuffles vaccine  
Skin disorders

## Ferret

Canine distemper  
Influenza

## Pig

Skin grafts  
Atherosclerosis  
Pig foot & mouth disease  
Heart transplants
